

# POST RELEASE SERVICE AREAS OF SUPPORT

## 1 EDUCATION

We support minors in enrolling in schools, including traditional, ESL, or technical programs. We address school culture and safety concerns, ensuring they receive appropriate learning support. We use supportive conversations to motivate and guide minors who are feeling overwhelmed with school.

## 2 LEGAL

Although we're not lawyers, we provide general information and guidance for court hearings. We connect minors with pro-bono attorneys, teaching them to avoid scams.

## 3 MENTAL HEALTH

We approach everything with trauma-informed care, providing a supportive space and mental health referrals when needed. While we deeply care, we are not therapists. Caseworkers offer a safe space to talk and provide resources like mental health hotlines.

## 4 PLACEMENT

We ensure the safety of the minor in their new home, connecting them with housing resources or shelters if needed. We also assist with essential needs and connect them with local food banks.

## 5 MEDICAL

Connecting minors with primary doctors and health insurance navigators is vital. We ensure access to medical services for the whole family, follow up on pending medical concerns, and teach them how to schedule appointments.
